General Revenue Fund (GRF) Balance

The General Revenue Fund (GRF) balance presentation shows the historical and estimated balances of the GRF through the current fiscal year on a cash basis and on a "fund" basis. The unencumbered and unobligated "fund" balance is calculated by deducting the amount reserved for prior year encumbrances and the amount reserved for obligations authorized by the General Assembly (i.e., designated transfers) from that fiscal year's ending cash balance.

**GRF Ending Cash and Fund Balances
for Fiscal Year 2012 - 2019**

GRF Ending Cash and Fund Balances for Fiscal Year 2012 - 2019
 (\$ in Thousands)

Authorized Retained Balance ⁴	-	963,149	602,216	393,000	290,703	-	-	665,148

¹ Cash balance equals the amount of moneys available on a cash (non-accrual) basis to support appropriations, including authorized transfers and encumbrances. The beginning cash balance includes reservations for both prior year encumbrances and designated transfers from the prior year ending balance.

² Surplus ending balance equals the ending cash balance less prior year encumbrances and less the 0.5% ending balance requirement of ORC Section 131.44.

³ Designated transfers are established in Acts passed by the General Assembly and include transfers to the unemployment compensation interest fund, medicaid reserve fund, disaster relief and emergency purposes funds, and other funds for one-time uses

⁴ The authorized retained balance reflects monies set aside pursuant to law for specific purposes such as pre-funding the cost of the subsequent fiscal years income tax reductions. More information regarding disposition of the GRF surplus ending balance in a particular fiscal year is available on the OBM website in the July edition of that year's Monthly Financial Report.

⁵ In FY 2017, the 0.5% ending cash balance target was set to equal the actual ending cash balance, which equaled 0.49995% of total GRF revenue.
